GENERAL CRITICISM

Shakespearean Criticism: Excerpts from the Criticism of William Shakespeare's Plays and Poetry, from the First Published Appraisals to Current Evaluation. Edited by Laurie Lanzen Harris. Detroit: Gale, 1984 – present.

[Available online for UofT use only: www.library.utoronto.ca/]

Shakespearean Criticism, a subset of *Literature Criticism Online*, provides immediate access to lengthy critical essays by major critics. Arranged alphabetically, the entries provide in-depth critical essays on an author's work, along with biographical facts, a list of major works, and related sources. Usually, the essays give an overview of a writer's work or themes. The entries are substantial. You can search by Named Work (*Hamlet*), or Keyword (e.g. Antonio in *The Merchant of Venice*, themes like ambition or pride, and critics like T.S. Eliot).

QUOTATIONS AND OBSCURE WORDS

A Shakespeare Glossary. By C.T. Onions, enlarged and revised throughout by Robert D. Eagleson. Oxford: Clarendon Press, 1986.

[St. Michael's 1st Floor Reference Area – PR2892 .O6 1985]

This alphabetical dictionary defines obscure and obsolete terms in Shakespeare's works. It also explains allusions, identifies proper names and defines outdated technical terms used in stage direction.

The Quotable Shakespeare: A Topical Dictionary. Compiled by Charles DeLoach. Jefferson, N.C.: McFarland, 1988.

[St. Michael's 1st Floor Reference Area – PR2892 .D37 1998]

Using a more sophisticated and extensive range of topics than the *Columbia Dictionary*, this alphabetical work organizes 6,500 quotations under 1,000 topical headings. Each entry is numbered. If you can't find what you're looking for, try the character, title (e.g. *The Merchant of Venice*) and topic indexes at the back. These refer you to the entry numbers. All citations refer to *The Riverside Shakespeare*.

The Columbia Dictionary of Quotations from Shakespeare.

Selected by Mary and Reginald Foakes. New York: Columbia University Press, 1998.

[St. Michael's 1st Floor Reference Area – PR2892 .F48 1998]

Organized alphabetically by such topics as *age*, *farewells*, *miracles*, *rivers* and *war*, this source identifies who is speaking in which play, along with the act, scene and line numbers each quotation comes from. The *List of Topics* outlines the contents and a keyword index allows users to find words not included in that list. All citations refer to the *Riverside Shakespeare*.

Shakespeare Lexicon and Quotation Dictionary; A Complete Dictionary of All the English Words, Phrases, and Constructions in the Works of the Poet.

[St. Michael's 1st Floor Reference Area – PR2892 .S42]

Unlike the *Shakespeare Glossary*, the *Shakespeare Lexicon and Quotation Dictionary* defines a wide range of words and phrases, both common and obscure. After the definition, each entry provides sample quotations, along with a list of all the plays (including act, scene and line numbers) containing this word. All references are to the *Globe Edition*.

CHARACTERS

Longman Guide to Shakespeare's Characters: A Who's Who of Shakespeare.

By Kenneth McLeish Harlow: Longman, 1985.

[St. Michael's 1st Floor Reference Area – PR2989 .M35 1985]

Look up Shakespeare characters by name—usually first name—to get a handy, brief character description, along with the person's key relationships with others in the play. This alphabetically-arranged source includes all of Shakespeare's characters and indicates which play (or plays) each is involved in. It also includes summaries of all 38 plays intermingled with the character entries throughout the book.

A Dictionary of the Characters & Proper Names in the Works of Shakespeare; With Notes on the Sources. By Francis Griffin Stokes. New York: Dover Publications, 1970.

[St. Michael's 1st Floor Reference Area – PR2892 .S67]

In general, use the *Longman Guide* for quick character information. These Stokes *Dictionary* entries, by contrast, lack clarity. The advantage of this dictionary, however, is the extras: besides containing entries on all the characters in the plays, this book lists and explains place-names, names used as allusions and most other proper names used in the plays. In each entry, the dictionary refers you to the related play, act, scene and line. In addition, some entries make references to first editions and sources.

CONCORDANCES

The Harvard Concordance to Shakespeare.

Compiled by Marvin Spevack. Cambridge, Mass.: Belknap Press of Harvard University Press, 1973.

[St. Michael's 1st Floor Reference Area – PR2892 .S6]

Using the modern spelling of *The Riverside Shakespeare*, this alphabetical computer-generated concordance covers every word in all of Shakespeare's plays and poems, and shows the context in which each word appears. Each entry consists of 3 columns: the rows of lines containing the word; an abbreviation for the play each is in; and the act, scene and line numbers. There's a list of symbols and abbreviations at the beginning of the book. This *Concordance* is a slightly abbreviated version of volumes 4 through 6 of *A Complete and Systematic Concordance to the Works of Shakespeare*.

A Complete and Systematic Concordance to the Works of Shakespeare. Compiled by Marvin Spevack. Hildesheim: G. Olms, 1968- 9 volumes.

[Victoria College, E.J. Pratt Library Reference Area – PR2892 .S6]

This nine-volume computer-generated concordance from *The Riverside Shakespeare* is comprehensive. Volumes 4 through 6 cover all of Shakespeare's plays and poems while the other volumes include drama and character concordances, stage directions, speech prefixes, and variants.

A Complete Concordance or Verbal Index to Words, Phrases and Passages in the Dramatic Works of Shakespeare—with a Supplementary Concordance to the Poems. By John Bartlett. London: Macmillan ; New York: St. Martin's Press, 1956.

[St. Michael's 1st Floor Reference Area – PR2892 .B2]

Similar to the *Harvard Concordance* and equally thorough, this work is alphabetical by the word being examined and further broken down by the play it is found in. Unlike the *Harvard Concordance*, the *Complete Concordance or Verbal Index* contains a separate concordance for Shakespeare's poems—as opposed to his plays—at the end of the book.

BIBLIOGRAPHIES

Shakespeare: A Bibliographical Guide. Edited by Stanley Wells. Oxford: Clarendon Press, 1990.
[St. Michael's 1st Floor Reference Area – PR2894 .S445 1990]

Arranged by topic (such as *Shakespeare in Performance*, *Hamlet* or *The Early Comedies*), this book consists of 19 bibliographic essays covering all of Shakespeare's work, each followed by lists of relevant books, essays and journal articles. The lists are organized into different printings of Shakespeare's works, general studies and—most useful of all—criticism.

Shakespeare. Compiled by David Bevington. Arlington Heights, Ill.: AHM Publishing, 1978.
[St. Michael's 1st Floor Reference Area – PR2885 .A8]

The advantage of this bibliography over its rival by Stanley Wells is its breadth: the book is crammed with far more books, essays, and journal articles. Like the Wells guide, the Bevington bibliography is organized by general topic in the first half (such as *Shakespeare's life* and the *Principles of Tragedy*) and into Shakespeare's works in the second half. What this bibliography lacks are the short introductory essays that accompany the lists of sources in *Shakespeare: A Bibliographical Guide*.

The Essential Shakespeare: An Annotated Bibliography of Major Modern Studies. By Larry S. Champion. Toronto: Maxwell Macmillan Canada, 1993.
[Victoria College, E.J. Pratt Library Reference Area – Z8811 .C53 1993]

In this work, Larry Champion attempts to identify the most important works of Shakespeare scholarship produced in the 20th century. Annotating more than 1,800 studies of the playwright and his works, the book is broken down into such categories as sonnets, history plays and tragedies: each of these subdivides into bibliographic types like reference works, criticism and stage history. The *Essential Shakespeare* includes author, title, and subject indexes.

Shakespeare and the Classical Tradition: An Annotated Bibliography, 1961-1991. By Lewis Walker. New York: Routledge, 2002.
[Victoria College, E.J. Pratt Library Reference Area – PR3037 .W35 2002]
[Robarts Library 13th Floor Stacks – PR3037 .S55 2002X]

This bibliography has collected 3,210 works in English published between 1961 and 1991 that treat the classical influence in Shakespeare's work. The citations are organized into: general bibliographies, surveys and reference works; general works; and sections on individual works. Entries consist of books, articles, chapters, essays, dissertations, other bibliographies, and reference works. Many have been annotated in such detail that just scanning them will give you a quick grasp of the scholarship available.

FINDING JOURNAL ARTICLES

To find articles in scholarly journals, magazines, newspapers, anthologies, collections and conference proceedings, the best place to go is an article database. Go to www.library.utoronto.ca/, click the *By Subjects A to Z* link, scroll down to your subject area—i.e. *Literature*—and click GO. You'll find a list of online databases containing relevant articles, as well as other online resources such as encyclopedias, dictionaries and research guides.

Start with this collection's advanced search screen for scholarly criticism on Shakespeare's work.

For more information, see the entry for this title under *Brief Reference*.

Annual Bibliography of English Language and Literature (ABELL).

[Available online for UofT use: <http://www.library.utoronto.ca/>]

This index, spanning 1892-2004, should be your next stop. Packed with more than 840,000 records, *ABELL* refers you to journal articles, books, essay collections, book reviews, and doctoral dissertations. Another advantage is scope. Covering American, British and Commonwealth literature, as well as some material in languages besides English, *ABELL* is one of the two major indexes for English students—the other is the *MLA International Bibliography*.

MLA International Bibliography.

[Available online for UofT use: <http://www.library.utoronto.ca/>]

This index, along with *ABELL*, is a key English literature source. It covers criticism related to literature, linguistics and folklore from 1921 to the present, and contains more than 1-million citations to journal articles, series, books, working papers and conference proceedings. Most of the materials indexed before 1963 are American.

ITER: Gateway to the Middle Ages and the Renaissance.

[Available online for UofT use: <http://www.library.utoronto.ca/>]

ITER is great for finding criticism on Shakespeare's works and other literature written during the Middle Ages and Renaissance (from 400 to 1700). Using an interface similar to the U of T Catalogue, you can search for articles, as well as books, essays, catalogues, abstracts, bibliographies and reviews.

Shakespeare Index: An Annotated Bibliography of Critical Articles on the Plays 1959-1983.

Edited by Bruce T. Sajdak. Millwood, N.Y.: Kraus International, 1992. 2 volumes.

[St. Michael's 1st Floor Reference Area – PR2894 .S25 1992]

What this excellent print index gives you is quick references to *specific* subjects in Shakespeare. Unlike an online index, where you might end up searching for hours, this 2-volume set allows you to find citations to articles on such focused subjects as: alchemy in Act 2, Scene 7 of *Antony and Cleopatra*, Caliban and allegory in *The Tempest*, and jealousy and transformation in *Othello*. The *Shakespeare Index* actually consists of a wide variety of indexes—that's why it's so helpful. You can look up articles by theme (e.g. Political, Economic, Social and Cultural Background), play, author, character, scene and subject. The only tricky part is getting used to the reference abbreviations (such as M, T, HH and YY) the index uses—but these are all listed in the Contents pages in volume 1.
