

## Memo from ITS – EASI Communications

---

**Date:** June 13, 2025

---

**To:** Learning Management System Users

---

**From:** Enterprise Applications & Solutions Integration

---

**Re:** Updating Learning Management System Login June 21

---

Dear Learning Management System users,

On Saturday, June 21, Enterprise Applications & Solutions Integration (EASI) will be updating the login for the **Learning Management System** to enhance security and align with U of T's technical roadmap and future evolution. After June 21 at 10 a.m., you will transition from using your current username and password to using your UTORid and password and authenticating using UTORMFA.

If you have not yet signed up for UTORMFA, U of T's multi-factor authentication solution, please [follow these instructions](#) and enrol in advance of June 21.

During the upgrade, you may experience a temporary disruption when logging in. If this happens, please clear your cache and try logging in again.

Please note that you will use [this link](#) to access the Learning Management System moving forward.

If you have questions, please email [lms.help@utoronto.ca](mailto:lms.help@utoronto.ca) for support.

Sincerely,  
Enterprise Applications & Solutions Integration
